

Listen

Nobody likes being told what to do, but when we don't want advice is often when we need it most.

To Discuss

1. Do you read instructions beforehand?
2. What's the best advice you've taken that perhaps you weren't convinced of in the moment?
3. Who should you have listened to but didn't?
4. Are you wiser now than you were ten years ago? What makes you say that—remembering that experience is not to be confused with insight?
5. Read **Proverbs 12:15** aloud. What key words stand out to you and why? Do the same for **Proverbs 19:20**.
6. Is someone trying to get your attention about something right now?
